## **Policy and Patient Consent**

## **Cosmetic & Insurance Consultation Policy**

Dr. Jones is pleased to offer a complimentary consultation for cosmetic procedures. Cosmetic procedures are operations that are not covered by traditional insurance due to their cosmetic nature. Cosmetic procedures may include Breast Augmentation, Liposuction, Abdominoplasty, Facelift, Rhinoplasty, etc. Additionally, cosmetic procedures are paid for by the patient, prior to surgery. Insurance procedures are those commonly covered by traditional health insurance. Some may include: breast reduction, carpal tunnel release, scar revision, reconstruction, etc. If the office pre-authorized or attempts to pre-authorize a procedure with your insurance company, you will be charged a consultation fee. If you request a letter for any reason, you will be charged for the consultation and letter. Attorney consultations are an evaluation by the doctor for purposes of fighting a claim or pursuing a lawsuit. These are not cosmetic consultations and will incur a charge. An additional charge will exist for a letter or summary of the doctor's findings. Dr. Jones does charge a fee for 2nd opinions on breast reduction, scar revision consultations, follow ups for patients who did not have surgery with Dr. Jones or had surgery abroad. These do not qualify for "free cosmetic" consultations. Payment is collected prior to the consultation. If you have a question regarding your consultation and financial responsibility, please ask the office staff before your consultation.

## **Patient Consents**

The Department of Health and Human Services has established a Privacy Rule to help ensure that personal health care information is protected for privacy. The Privacy Rule was also created in order to provide a standard for certain health care providers to obtain their patients consent for use and disclosure of health information about the patient to carry out treatment, payment, or health care operations. We respect the privacy of your personal medical records and will do all we can to secure and protect that privacy. We strive to always take reasonable precautions to protect your privacy. When it is appropriate and necessary, we provide the minimum necessary information to only those we feel are in need for your health care information and information about treatment, payment, or health care operations, in order to provide the health care that is in your best interest. We support your full access to your personal medical records. We may have indirect treatment relationships with you (such as laboratories that only interact with physicians and not patients), and may have to disclose personal health information for purposes of treatment, payment, or health care operations. These entities are most often not required to obtain patient consent. You may refuse to consent to the use or disclosure of your personal health information, but this must be in writing. Under this law, we have the right to refuse to treat you should you choose to refuse to disclose your personal health information. If you choose to give consent in this document, at some future time you may request to refuse all or part of your personal health information. You may not revoke actions that have already been taken which relied on this or a previously signed consent. I agree that all photographs and reproduction hereof are and shall remain the property of Trenton C. Jones, MD. I hereby grant permission of the use of any record, illustration, photograph or other imaging record created in my case, for any use deemed appropriate including but not limited to the use in examination, testing, credentialing and/or certifying purposes by the American Board of Plastic Surgery, Inc. You have the right to review the privacy notice, to request restrictions and revoke consent in writing after you have reviewed the privacy notice.
